

BALWYN NORTH
Primary School

Student Engagement Policy

Rationale:

Balwyn North Primary School recognises that targeted and individual strategies are needed to positively engage students. This takes into account the range of school-wide, targeted and individual strategies which meet the needs of our students.

Definition:

Student engagement can be defined as three interrelated components: behavioural, emotional and cognitive.

- **Behavioural engagement** refers to students' participation in education, including the academic, social and extra-curricular activities of the school.
- **Emotional engagement** encompasses students' emotional reactions in the classroom and in the school and measures a student's sense of belonging or connectedness to the school.
- **Cognitive engagement** relates to a student's investment in learning and their intrinsic motivation and self-regulation.

Aims:

Balwyn North Primary School is committed to providing safe, secure and high quality learning and development opportunities for every student. These students can only reach their full educational potential when they are happy, healthy and safe, and when there is a positive school culture that is fair and respectful to engage and support their learning.

This policy aims to support a vibrant and positive school culture with a shared enthusiasm for learning. It reflects the school community's aspirations, supports the school's strategic aims and addresses the school's legal obligations under relevant legislation. This policy aims to support an engaging and safe environment for students.

School profile:

Balwyn North Primary School is situated in a quiet suburban location away from main roads, sharing boundaries with Balwyn High School and The Merrell Kindergarten. Each year a significant number of families enrol and transfer their children into the school (up to 50 new families in any given year). Most transfers into or out of the school are related to families moving into or out of the area. In 2016, Balwyn North Primary School students, parents and staff worked in partnership to develop a vision for the school, which reads:

In the welcoming environment of BNPS, everyone has a place to be. High expectations for all are achieved through an engaging and progressive approach to education. We foster strong relationships based on mutual respect with an appreciation for our cultural diversity. We value quality teaching and deep learning to build caring and independent future thinkers.

Implementation:

Engagement strategies

The school works collaboratively with students and parents/carers to establish fair and respectful behaviour policies and practices, based on the school's vision.

The school implements a curriculum that inspires curiosity and engagement, leading to improved student outcomes. To realise our vision, our school has in place a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in the school.

Engagement strategies used at Balwyn North Primary School are outlined in Appendix 2.

Further to these strategies, the school utilises the explicit teaching of the International Baccalaureate Primary Years Programme Learner Profile Attributes and Attitudes to develop students who have respect for themselves and others and the community and world around themselves.

Identifying students in need of extra support

We recognise that some students, as a group or as individuals, may need extra support in their learning to flourish at school. In other instances students may need additional support with social and emotional development when their behaviours impact on the learning environment of themselves or others.

Our school will utilise the following information and tools to identify students in need of extra support:

1. Personal information gathered upon enrolment
2. Attendance rates
3. Academic performance, particularly in literacy and numeracy assessments
4. Behaviour observed by teachers and support staff
5. Engagement with student families
6. Reports from external experts such as educational psychologists, speech pathologists and other professionals.

Behaviour management

Behaviour management strategies and approaches may be used as part of a staged response to challenging behaviour. It may be used in combination with other engagement and support strategies to address the range of factors that may have contributed to a student's behaviour.

Behaviour management measures that may be applied include:

1. Restorative approach, repairing relationships and any damage caused
2. Discussion with parents and families regarding behaviour management and where necessary developing a Behaviour Support Plan.

Behaviour management aims to retain the dignity of the student and any measures taken to exclude a student from learning will be avoided where possible. It is the responsibility of staff

members to seek to restore their relationships with the student when any withdrawal has occurred.

Behaviour management strategies will be applied fairly and consistently in an agreed manner by all staff.

Behaviour management will always be proportionate to the nature of the behaviour, and will be employed in combination with support measures to identify and address causes of the behaviour.

Suspension and expulsion are measures of last resort and can only be approved by the principal. Balwyn North Primary School will follow the processes for applying these measures as set out in the Student Engagement and Inclusion Guidance.

Information on grounds and processes for suspension and expulsion that our school will follow are available at:

<http://www.education.vic.gov.au/school/principals/participation/Pages/discipline.aspx>

Corporal Punishment is prohibited in all Victorian schools. Corporal punishment is not permitted at Balwyn North Primary School under any circumstances.

Strategies and guiding principles about behaviour management are detailed in Appendix 4 and its links.

Engaging with the community

The School values parent / carer input into its operations and curriculum and seeks feedback through the Parent Opinion Survey, and from parent representatives on School Council. The school will support families to engage in their child's learning and build their capacity as active learners. It provides an environment that welcomes all parents/carers and is responsive to them as partners in learning.

The school will create successful partnerships with parents/carers and families by:

1. Ensuring all parents/carers are aware of the school's Student Engagement Policy
2. Conducting effective school-to-home and home-to-school communications
3. Providing volunteer opportunities to enable parents/carers and students to contribute
4. Involving families with curriculum-related activities
5. Involving families in information sessions and open activities

Parents' responsibilities for supporting their child's attendance and engagement are outlined in **Appendix 1.**

Evaluation:

The school will evaluate the effectiveness of the policy's aim using the following:

1. The Attitudes to School Survey data
2. Student feedback
3. Parent survey data

Appendix 4

Also see: Staged Response, as outlined in the Department of Education and Training Student Engagement and Inclusion Guidance

Staged response checklist for student behaviours outside of shared expectations:

This stage response is intended to act as a guideline to enable effective decision-making when facing behavioural issues across the school.

Stage 1: Proactive strategies

Proactive Strategies: Whole school strategies to pre-empt positive interactions

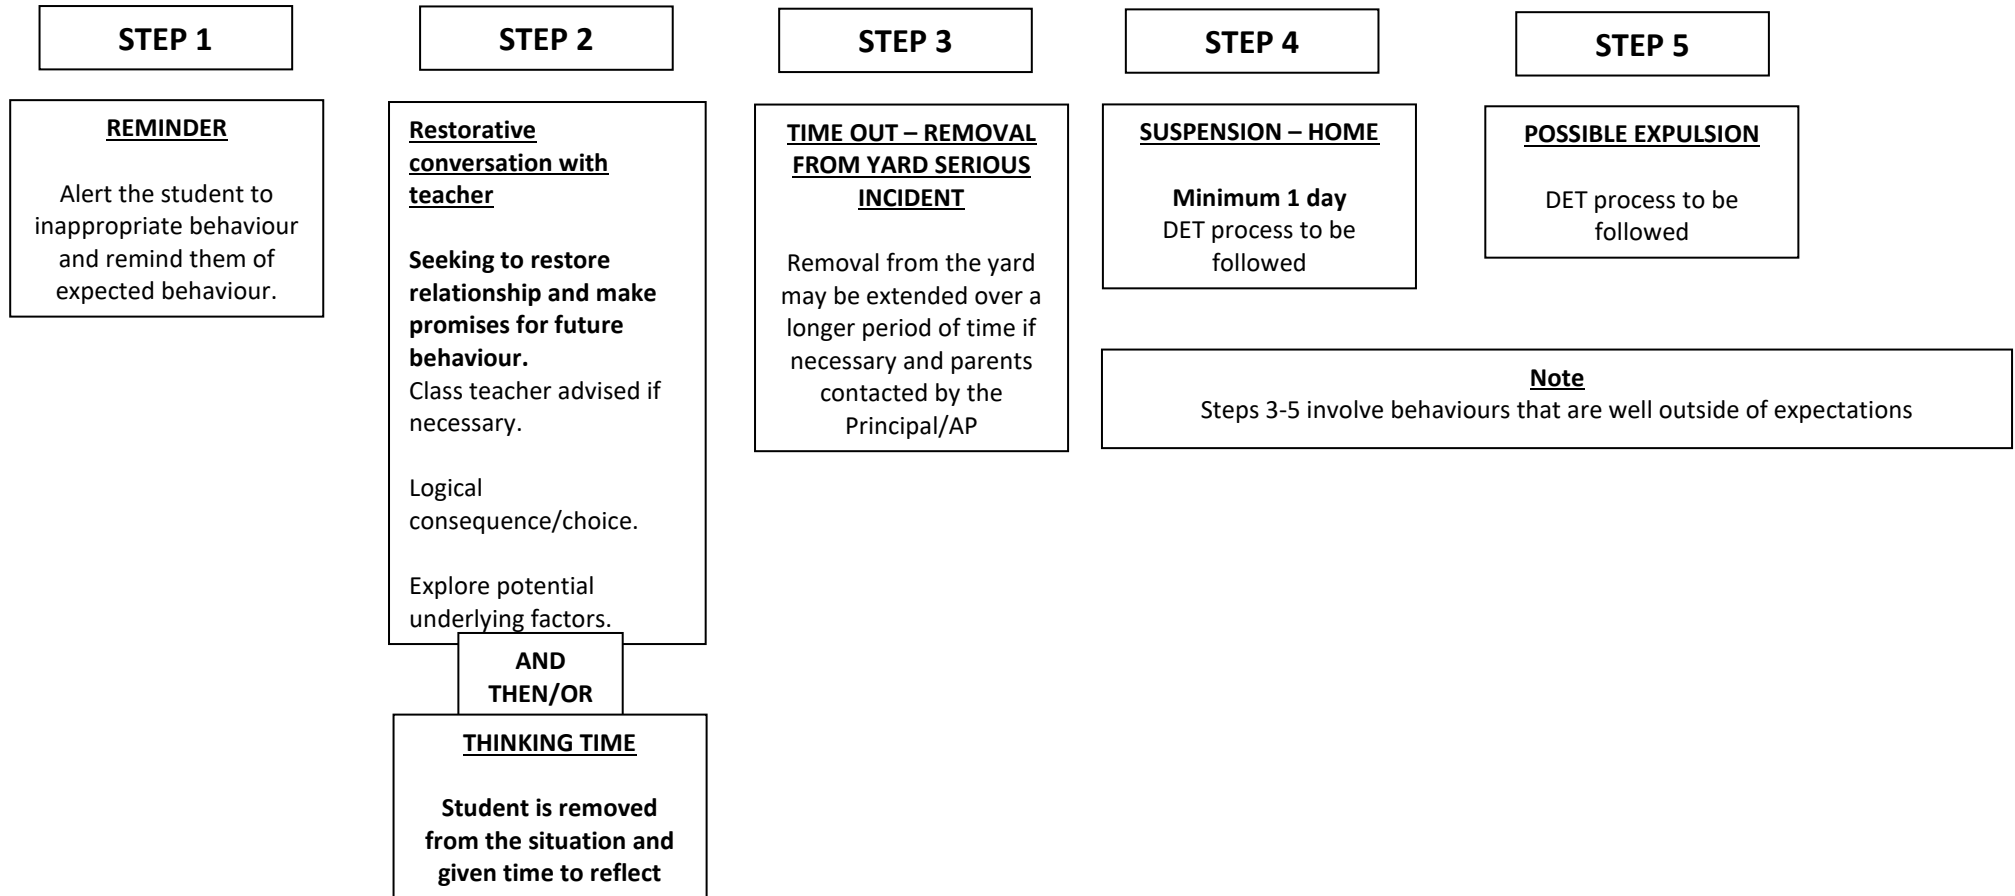

Be a positive role model. Use a quiet, controlled voice and use discretion to minimise audience.
Work with parents, colleagues and support staff.
Understand individual student needs.
Develop social skills in curriculum and Resilience programs.
Define and teach school-wide expectations for all.
Establish whole school values that are visibly promoted across the school.
Develop consistent school-wide processes to identify at risk students.

Stage 2: Responding to individual students exhibiting challenging behaviours

Suggested strategies
Assess the behaviour and its functions, influences and triggers (include students, parents and school wellbeing staff as appropriate)
Develop Behaviour Support Plan and/or Individual Learning Plan (ILP)
Consider if any environmental changes need to be made
Engage Student Support Services and/or community services to provide assessments or specialist support
Establish peer groups that allow particular students to feel supported
Implement appropriate consequences that are proportional to behaviours (see below)
Assist students to understand classroom rights and responsibilities

Steps to follow when children need support to manage their behaviours:

Rationale: All children make mistakes. We work to help children resolve their problems and work together to build better understandings.

Guiding Factors

Logical Consequences

Consequences for behaviour should make sense to the student and be appropriate to the age, circumstances and incident

Response and Follow-up

Managed by the supervising teacher. Classroom teacher to be notified following incidents on yard duty.
Steps to be followed logically according to seriousness of incident or repeated misbehaviour.
Serious misbehaviour (involving safety of students/staff) or offensive, disrespectful behaviour may see steps 1-2 omitted.
Serious/repeated incidents will be followed up in conjunction with the Principal/AP
